Resident Council Update – February 2020

Nominations for Resident/Volunteer of the Month - Please note that the Council has added "Volunteer" to this designation. That gives us an opportunity to acknowledge the contributions of non-Fairhaven/Prairie Village residents who contribute to our community. (There is a list of previously-honored residents and volunteers posted on the Lower Level Resident Council Bulletin Board. That list is also on the bottom of each month's Council agenda which all members have.) Nominations can be made by any Fairhaven or Prairie Village resident to any Resident Council member, preferably in writing. You can always leave your nomination in the Main Lobby Suggestion Box, located by the Main Lobby Coffee Bar.

New Web Sites - You know, all these Web sites we see – well, they don't just spring out of our computers without a lot of design work that includes wording and appearance. Thanks to Tim Probst, Marketing and Communications Director, and others, Fairhaven and Prairie Village have new Web sites: www.fairhaven.org and www.prairie-village.org. According to Tim, "The expanded portion for Prairie Village is in progress. The Fairhaven and PV sites are now together, but can be access via either name." Next time you're online, check us out!

Shredder - Don't forget as you clean out 2019's (and maybe more!) paperwork that we are fortunate to have a shredder in the Lower Level Library. It's in the left hand corner of the room on the other side of the desk. You can sit as you shred. Housekeeping keeps its bag empty so it's a good resource and set-up to get rid of that stuff you just don't need anymore!

Bulletin Boards - Special thanks to Brian Beck for taking care of the "AA" and "C" entrance bulletin boards through early February. You'll see his creativity again as he's agreed to do the same several more times during the year.

Wednesday Afternoon Bible Study

We are blessed with many opportunities to explore and experience our faith here at Fairhaven. Among those opportunities is the long-time Wednesday afternoon Bible Study. This is an ecumenical group - everyone is invited. All points of view are accepted - and expected!

I provide a copy of what we're studying each week, so you don't even have to bring your own Bible. We do, however, have Bibles available in the Whitewater Room (where we meet).

We're a welcoming group who know full well that we learn from studying the Bible together. Currently we are early in our study of the Gospel of Luke. We meet every Wednesday afternoon at 2:00 p.m. Please consider joining us.

When to Purchase New Hearing Devices

Hearing aids are sophisticated devices that receive daily use in harsh environments, subject to moisture, heat, dirt and earwax. Even though they are built to precise standards, at some point they will need to be replaced. Figuring out when is the key to uninterrupted communications.

No product lasts forever. Over time, mechanical problems can develop, or the technology may simply become obsolete. However, there are steps you can take to prolong the life of your hearing devices.

Cleaning on a regular basis can help prevent problems from occurring. Use a soft, dry cloth and avoid liquids, which might cause damage. Change the wax filter and clean the microphone and any other dirty areas with a soft brush. Be sure to take your hearing devices to a licensed audiologist periodically for check-ups; they can detect issues such as power loss, dirty battery contacts and plugged vents.

Servicing and repairs can add up over time. Eventually, these costs will outweigh those required to purchase new hearing devices. You should consider new hearing devices when:

- Your current hearing devices are five or more years old.
- Your hearing devices have visible damage.
- Your hearing devices have already been repaired previously.
- Your hearing loss worsens, or is no longer helped by your current devices.
- Newer, better technology for your type/extent of hearing loss is available.

If any of these factors apply to your situation, make an appointment with your audiologist as soon as possible. Call Fort HealthCare Audiology at 920-563-6667 to schedule a hearing evaluation.
