2 Thumbs Up with the Binnies

Though this month's movie, which is reminiscent of the Agatha Christie genre, is called **Knives Out**, (2019) it's not bloody. When renowned crime novelist Harlan Thrombey is found dead at his estate just after his 85th birthday, inquisitive and debonair detective Benoit Blanc is mysteriously enlisted to investigate. From Harlan's dysfunctional family to his devoted staff, Blanc sifts through a web of red herrings and self-serving lies to uncover the truth behind Harlan's untimely death. Betty Jo Tucker of *Reel Talk* writes, "This film includes almost everything I like to see in the mystery genre. It takes place in an old Gothic mansion, exudes suspense, drops a lot of clues, introduces fascinating suspects, adds a bit of humor, and kept me guessing right up to the end." 130 minutes; PG-13 (for thematic elements including brief violence, some strong language, sexual references, and drug material); subtitles will be shown. We'd be happy to have you join us on **Saturday, March 14, 6:00 p.m., Fellowship Hall.**

Hearing Screenings vs. Evaluations - The difference between a hearing screening and a hearing evaluation is important. A screening refers to a single, preliminary test used to determine whether a patient has hearing loss whereas an evaluation is an in-depth series of tests conducted by an audiologist used to measure the type, degree and configuration of the impairment and identify the steps necessary for treatment. A typical hearing evaluation may consist of any combination of the following tests: pure-tone (air conduction) audiometry, bone conduction testing, speech testing, inner ear testing (Auditory Brainstem Response, Otoacoustic Emissions) and middle ear testing (tympanometry, acoustic reflex).

The **type** of hearing loss refers to which part of the hearing system has been damaged. Hearing loss is broken down into three basic types: conductive (outer or middle ear), sensorineural (cochlea and inner ear) and mixed (a variety of conductive and sensorineural)—all of which can be treated successfully with various medical or audiological solutions.

The **degree** of hearing loss refers to its severity. Hearing loss is measured in decibels (dB) and ranges from normal to profound. It is classified as follows:

Normal	-10 to 15 dB
Slight	16 to 25 dB
Mild	26 to 40 dB
Moderate	41 to 55 dB
Moderately severe	56 to 70 dB
Severe	71 to 90 dB
Profound	91+ dB

Hearing loss configuration refers to the pattern of loss across frequencies, as charted on a patient's audiogram. An individual whose loss affects the high tones is described as having high-frequency hearing loss; the configuration would show good hearing at lower pitches and poor hearing at higher pitches. Call Fort HealthCare Audiology at 920-563-6667 to schedule a hearing evaluation or complimentary hearing screening.

Resident Council Update

Nominations for Resident/Volunteer of the Month

Please note that the Council has added “Volunteer” to this designation. That gives us an opportunity to acknowledge the contributions of non-Fairhaven/Prairie Village residents who contribute to our community. (There is a list of previously-honored residents and volunteers posted on the Lower Level Resident Council Bulletin Board. That list is also on the bottom of each month’s Council agenda which all members have.) Nominations can be made by any Fairhaven or Prairie Village resident to any Resident Council member, preferably in writing. You can always leave your nomination in the Main Lobby Suggestion Box, located by the Main Lobby Coffee Bar.

“Reflections”, Anja Leo

This embroidered artwork, commissioned by and donated to Fairhaven by Simone DeVore, former UWW Professor and Project Big Coordinator, is hung on the Lower Level, close to the Beauty Shop. If you’ve not already, take time to look at it and read this Swiss artist’s description of its meaning. Not only is it a beautiful addition to that hallway’s artwork and photographs, it’s also a multi-generational statement depicted by its colors and patterns as outlined in the portrayal of the grandmother and child.

News!

As a result of Jean Leedham’s passing late last year, Henry Malo has agreed to serve her unexpired term which ends in 2021. Sue Schweitzer will serve as vice-chairman through May, 2020. Thanks to both these Council members for agreeing to serve in these roles.

Council By-Laws

The Resident Council was first organized in 1986 when a massive amount of work was done to define its’ purpose and processes. Those were outlined in the first version of its By-Laws and continue to be regularly reviewed and updated. Should you be interested in a current copy, contact Kathy Ross.

New Mail Box

The Council has been given its own mailbox. Should there be anything written that you want to leave for the Council, leave it at the Front Desk. This does not replace our Suggestion Box (as noted above, it resides in the Front Lobby).

Fairhaven’s Little Free Library

During March, you’ll find our Library in the Second Floor E Lounge!

We at Fairhaven are committed to helping Whitewater prosper and need your help. We are involved with the Whitewater Marketing Alliance in an effort to move Whitewater forward.

An example of that effort is to promote getting a “real” grocery store in Whitewater. You can assist by taking a quick, anonymous survey.

Be honest. Be thoughtful. Simply type: <https://tinyurl.com/rnvntw9> into the search bar on your computer. Or, if you’d rather take the survey on good, old-fashioned paper, you can get a copy at the Front Desk. Return it to the Front Desk.

Thanks in advance for your participation.
